

Pick Up Tool 4-In-1

A multi-function tool that includes, inspection mirror, windscreen washer probe, magnetic pick-up tool and pen. The telescopic shaft extends for a longer reach for inspection and retrieval from hard to access areas and the mirror has a flexible head that can be angled for the best visibility. The needle probe is useful for clearing blocked washer jets and there is also a handy ballpoint pen. A useful pocket tool suitable for a wide range of uses in the home and workshop.

Additional Information

- 4 in 1 tool: Magnetic pick-up tool, mirror, washer jet probe & pen.
- Inspection mirror 40mm diameter, with flexible head.
- Needle probe for clearing windscreen washer jets.
