

Wheel Impact Socket 46mm 1/2"D - Triumph

Wheel impact socket, 46mm 1/2" drive. A useful size for motorcycle, car and van servicing and maintenance, including single sided rear swing arm, rear wheel and sprocket side nuts of Triumph motorcycles. The six-sided socket head drives from the flats to provide more torque, useful for freeing seized nuts & bolts, whilst avoiding the risk of rounding. Machined for a precise fit with thin walls to reduce the chance of damaging surrounding components. Designed to withstand the pressure of impact tools this socket is made to meet the rigours of the professional workshop, ideal for the fast, safe removal of nuts and bolts.

Additional Information

- Equivalent to Triumph OEM T3880046 to fit: Daytona 595/955 Speed Triple, Sprint ST 955/1050, Tiger 885i/955.
- Size: 46mm single Hex (6pt) x 48mm long. Outside diameter: 60mm; inside depth: 22.5mm.
- For use on single sided rear swing arm, rear wheel & sprocket side nuts. Thin wall reduces the chance of damage to surrounding components.
- Size clearly printed on the socket for easy identification.
- Impact quality, manufactured from chrome molybdenum.
