

Clamp for Strut Insert Pistons

Designed to lock a MacPherson strut quickly and easily in its fully extended position, before the road spring is removed, and hold it in that extended position until the road spring is replaced.

Additional Information

- This tool is particularly useful when working with struts that are equipped with strong internal springs (tension stop springs) that pull the strut shaft partly into the strut.
- For strut pistons with max. diameter of 21mm.
- Included in Laser MacPherson Strut Expander Tool Set, Part No. 5790.
