

Oil Drip Absorbent Mat

Oil drip absorbent mat made from strong, tear resistant polypropylene for fast soak-up. Designed to absorb up to 2.6 litres of oil, brake fluid and petroleum-based fluids, with hydrophobic technology so pads will not soak up water. Extra-large size, 1000mm x 800mm with a plastic film backing to keep hands clean when handling, ideal for automotive use. Helps to keep the workshop floor tidy, and reduces slip hazard risk.

Additional Information

- Oil absorbent mat. Mat size: 1000mm x 800mm x 2mm. Weight: 50g.
- Hydrophobic technology, only absorbs oil-based liquids (not water).
- Super absorbent 100% polypropylene with plastic film backing for added floor protection.
- Absorbency 2.6L per mat.
- White colour; easy to see spills.
