

Butan-Brenner – flexibler Kopf

Butane gas torch with flexible head and two heat level settings. The flexible head offers three operating positions (90°, 135° & 180°) which are adjusted and secured using a click lock mechanism for quick, reliable set up. Features a stainless steel grip with pistol trigger for comfort and ease of use. Comes with some important safety features including a child resistant safety catch and auto turn off when the trigger is released. A quality tool designed for consistent and reliable service.
