

## Cordless Polisher 20V w/o Battery

A professional workshop 'one battery powers all' cordless tool range with brushless motor technology built for daily use. The brushless motor works harder and lives longer and includes the latest overload protection technology. This cordless polisher delivers a comfortable grip, with safety switch. This five speed polisher delivers a comfortable grip, trigger lock and adjustable handle for ease of use, and uses standard M14 thread compound and polishing heads, with a clever spindle lock function making it quick and simple to change pads. Other tools in the family are an impact drill, impact screwdriver, impact wrench 1/2"D and an angle grinder, all supported by a 4 amp, 10 cell lithium battery (purchased separately) allowing professional users to run one whilst one charges giving uninterrupted use. Cordless power is fast becoming the experts choice over mains and pneumatic, bringing extra safety to the workforce environment.

### Additional Information

- M14 spindle, for use with standard 150mm compound & polishing heads (diameters up to a maximum of 180mm) & spindle lock function for easy pad changeover.
- 5-stage speed selection, with safety switch and detachable 'D' handle for improved control. Tested vibration emission value 4.113m/s<sup>2</sup>.
- No Load Speed: 800 - 2400rpm (max). Max disc diameter: M14 x 180mm (7"). Supplied with 180mm diameter polishing foam and buffing pads.
- CE, UKCA & RoHS approved, 4.0 AH 20V battery part number 8007. Battery chargers available - please see Laser Part No. 8008 (BS, UK plug) & 8009 (Euro plug).
- To store the tools for mobile use order part number 7846 18" wide opening tool bag with hard base for durability. A range of foam heads are available in the Connect range - please see Part Nos. 32282 -

32290 (3) & 32291
