

Oiler with Double Pump 300ml

A general purpose oil can with a double pump that enables it to continue pumping regardless of its orientation, making it ideal for use in confined spaces or on hard to reach areas. It features a high-density polyethylene 300ml capacity bottle with a brass pump and nozzle allowing for precision lubricating and is suitable for use on machinery, tools, door hinges or anything else that requires oiling as part of its regular maintenance.

Additional Information

- Double pump design allows the oiler to work upside down as well as when nearly empty.
- 300ml capacity.
- Ergonomic design for comfort during repeated use.
- Bottle manufactured from PE-HD plastic, with a brass nozzle and pump.
- Suitable for use with motor oil, diesel and lubricants.
