## Assorted Test Lead Adaptor Set 16pc

Designed to fit on a 4mm banana multimeter test lead, the Laser 8603 kit provides 7 connector specific male and female terminals that allow a multi-meter to be connected in a safe and non-damaging way to 7 different automotive style connector blocks.

Additional Information

- Terminal sizes included: flat spade type sizes 0.8, 1.2, 2.0, 2.5, 3.0, 5.0 & 6.0mm.
- Also includes: 1x needle test probe & 1x pierce probe.
- Ideal when probing circuits for resistance & voltage checks.
- Ensures a good secure connection.
- Designed to work with 4mm banana multimeter leads, including Laser electrical test lead set (Part No. 6543) & Gunson test lead accessory set (Part No. 77019).
